How relevant is the current training of eco-professionals provided by the leading Russian universities? Which eco-professions are needed today and will be in demand in the coming decades? What career opportunities for ecologists are now being offered by leading companies in our country?</p>	<p><b>ENVIRONMENTAL CULTURE? NEVER HEARD OF IT</b> Discussion session with experts</p> <p><b>Organizer:</b> ANO Russia - Land of Opportunity <b>Description:</b> Ecological philosophy and its way of introduction into society. What are the tools to promote an eco-friendly lifestyle? What are the generational features of acceptance or rejection of eco-culture values?</p>	<p><b>JOURNEY TO SCIENCE: ECOLOGY AS A VECTOR FOR POPULAR SCIENCE TOURISM DEVELOPMENT</b> Discussion session</p> <p><b>Organizer:</b> Russian Ministry of Science and Higher Education <b>Description:</b> What is popular science tourism? What are the prospects for its development? Who can become a participant in the process? How are popular science tourism routes created and shaped? How does this relate to natural sites and how can they be included in the program?</p>
13:00-13:45	<p><b>Coffee break</b></p>		
13:45-15:15	<p><b>FIRST CONGRESS OF THE ALL - RUSSIAN ENVIRONMENTAL PUBLIC MOVEMENT “ECOSYSTEM”</b> Meeting</p> <p><b>Organizer:</b> Russian Federal Agency for Youth Affairs <b>Description:</b> Within the framework of the session, the authorities will be elected, the movement will be officially launched.</p>	<p><b>URBANISM OF ECO-CITIES: COMFORTABLE ENVIRONMENT OF THE NEW ERA</b> Panel discussion</p> <p><b>Organizer:</b> SC Rosatom, Russian Federal Agency for Youth Affairs <b>Description:</b> Eco-city – is it a myth or a reality? What is a modern eco-city? What are the tools for integrating business into the ecological transformation of a city? What is the role of volunteers in creating a new eco-friendly urban environment? How do environmentally friendly spaces attract young people?</p>	<p><b>ENVIRONMENTAL SAFETY TECHNOLOGIES: KEY TRENDS IN NATURE CONSERVATION</b> Discussion session</p> <p><b>Organizer:</b> SC Rosatom <b>Description:</b> Business is interested in ESG agenda implementation and focusing on “green projects.” What technologies are used to minimize negative impact on the environment? What innovations are the most promising for integration into production?</p>
15:30-17:00	<p><b>OPEN DIALOGUE OF WOMEN LEADERS IN ENVIRONMENTAL INITIATIVES</b></p> <p><b>Organizer:</b> Federation Council, SC Rosatom <b>Description:</b> Open dialogue will bring together bright representatives of the female environmental community to present current trends and projects, as well as to develop joint eco-initiatives for sustainable development.</p>	<p><b>GREEN SUCCESS STORIES: FROM VOLUNTEER TO EXPERT</b> Master class</p> <p><b>Organizer:</b> Russian Federal Agency for Youth Affairs <b>Description:</b> Young people are keen to contribute to environmental projects. Volunteer projects help with this. For some, this activity becomes a priority and turns into a professional pursuit. How does being environmentally friendly become a life value? What is the trigger for the emergence of environmental agenda ambassadors?</p>	<p><b>ECOLOGY WITHOUT BORDERS: INTERNATIONAL COOPERATION IN THE YOUTH ECOSYSTEM</b> Panel discussion</p> <p><b>Organizer:</b> SC Rosatom <b>Description:</b> The environmental agenda is gaining popularity among young people, who speak with one voice on sustainable development issues around the world. What do environmental problems around the globe have in common? Is it possible to develop a unified vector of youth engagement in the eco-awareness agenda? What are some examples of effective eco-cases and eco-startups that actively involve young people?</p>
17:15-18:45	<p><b>ALL-RUSSIAN ENVIRONMENTAL MOVEMENT: TRACK BUSINESS</b> Project session</p> <p><b>Organizer:</b> Russian Federal Agency for Youth Affairs <b>Description:</b> All-Russian environmental social movement “Ecosystem” aims to develop cooperation with business to address environmental issues. In consolidation, there is strength! Participants of the project session will develop the key vectors and tools for cooperation.</p>	<p><b>CITIZEN SCIENCE: HOW TO INVOLVE YOUNG PEOPLE IN FINDING SOLUTIONS TO ENVIRONMENTAL PROBLEMS?</b> Discussion session</p> <p><b>Organizer:</b> Association of Volunteer Centers <b>Description:</b> Citizen science is one of the effective tools for engaging youth in finding solutions to environmental problems. What citizen science environmental projects are there? What is the vector of development in this field?</p>	<p><b>ECOLOGY AS A WAY OF LIFE: HOW TO PROMOTE THE TREND AMONG YOUTH</b> Roundtable</p> <p><b>Organizer:</b> ANO National Priorities <b>Description:</b> Environmental issues are of concern to young people. However, not everyone manages to adopt an eco-friendly lifestyle. Extra motivation is needed to become a participant of an ecological initiative. First and foremost, it should be the result of a conscious choice rather than following fashion.</p>
19:00-21:00	<p><b>The concert</b></p>
